

Good evening,

GL Events, organiser of M.A.D.E., announces that its 2020 edition, initially scheduled for March 17 and 18, has been postponed to **May 13th and 14th, 2020** at Paris Porte de Versailles.

As a safety measure in the face of the local health situation, it seems that postponing the 2020 edition of the M.A.D.E. is the wisest decision. The welfare of our 400 exhibitors, our partners and companies and our visitors is our main priority.

It is a difficult decision to make but the conditions are not met today for this event to take place. We are confident that our entire community will be meeting from May 13th and 14th to participate in the food creation exhibition. Our whole team is resolute in making sure this 4th edition is a success.

We would like to thank our clients for their understanding as well as the ministerial and territorial authorities who have accompanied us the whole time and continue to support us during this period.

Thank you for your trust and loyalty.
